

Advanced Business Communications

D2 Office Phone

The One Phone for Business

Simplify your communications with the one desk phone for all of your business needs. The phone comes pre-provisioned and allows simple plug and play to start making calls. Get the benefits of a big-business phone system—on devices that are simple for your team to use. Our phones feature an intuitive user interface with the functionality you'd expect:

- **24 digital presence keys** - custom programmable keys to manage your office communications and see the status of office users.
- **HD audio** - hear all call details in clear, high-definition sound—whether on a 1-to-1 or conference call.
- **WiFi capable** - WiFi-enabled (one-time fee upgrade) to allow connection with a wireless network.
- **Bluetooth** - seamlessly connect with headsets for hands-free calling.
- **POE** - Power over Ethernet with 1GB passthrough.
- **Color LCD display** - clearly see all your communication activity.

D2 Office Phone

Plug-and-Play Convenience

Phones are configured and ready to go when you take them out of the box. Simply plug your device into your network's Ethernet connection and start communicating.

Centralized Device Management

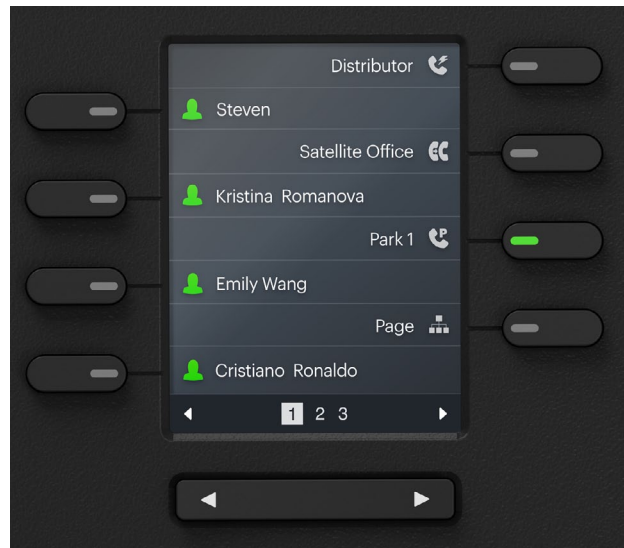

Manage every phone in your system from a unified portal. Easily push out firmware and updates, manage presence keys, manage lines, add new users and more.

Phones That Evolve

Most phones become outdated over time. Switch to a phone system that keeps up with your business. Through our Evolve program, you get new, upgraded devices every 36 months. This guarantees you will always have the latest firmware and hardware updates. We also cover full warranties—so if anything happens before your upgrade, we fix or replace the phone for free.

Customizable Presence Indicators

Enable each employee to create a unique desk phone experience by customizing any of the 24 digital presence keys to match specific user preferences.
